- Desna's Star

Desna's Star

A rare flower with glowing orange petals. Desna's Star makes a mild, aromatic tea that facilitates restful sleep. When taken before sleeping, this tea grants one the ability to lucid dream.

> They say Desna, goddess of dreams, luck, and stars, planted the first seed. A beautiful orange flower. Those who come across it and make tea say they have the most vivid dreams - the kind they feel in control of. And an usually restful sleep, to boot. With a clear conscious, they carry on with wisdom behind their backs.
